

*Rebuilding Communities From The Inside Out*

Dr. Tony Evans, President

January 25, 2010

Dear Friends:

Project Turn Around is deeply concerned about the online dangers facing children today. Through the ministry of Dr. Tony Evans, the Oak Cliff Bible Fellowship Church has been working for many years to enhance the welfare and safety of children and families throughout the Dallas area. We commend Enough Is Enough (EIE) for their tremendous work to make the Internet safer for children and families nationwide through the Internet Safety 101 program.

We are excited to establish an affinity partnership with Enough Is Enough with the development of the groundbreaking Internet Safety 101 Program. As the Urban Alternative endeavors to provide our communities with effective and useful ways to improve their lives, it is critically important that we protect them from Internet dangers.

Enough Is Enough has developed a unique and compelling approach to reach and educate parents, law enforcement and adult childcare providers with the best resources and information on Internet safety. Working with the Urban Alternative, as well as with other state-based grassroots organizations and affinity partnerships, Enough Is Enough will reach into the homes of thousands of families in need of protection.

With the tremendous success of the pilot program in Virginia, we at the Urban Alternative consider it an honor to be part of rolling out the critical 101 Program into the great state of Texas.

Sincerely,

Rev. Charles M. Wolford II  
Pastor of Outreach/Executive Director PTA
