Dear Enough Is Enough:

Maryland PTA is very excited to be asked to partner with Enough is Enough with the Internet Safety 101: Rules 'N Tools program.

We are willing to partner with Enough is Enough in:

- Providing information to our PTA parents on the program, through our website, direct e-mailing and inclusion of information in our back to school mailing
- Assisting in facilitating Town Hall Meetings
- Provide a space during our Summer Leadership and Fall convention Vendors Hall
- Allow Enough is Enough to place information in our registrants bags for Summer Leadership and Fall Convention

We look forward to working with you and Enough is Enough as we provide the valuable information regarding the need for internet safety to our parents, there by empowering parents to assist in making knowledgeable decisions for their children.

Sincerely
